### **Susan G. Komen® Austin Announces Staff Promotions**

Komen Austin is excited to announce two promotions within the Komen staff. Jeannine O’Deens, previously Director of Operations, has been promoted to Vice President of Operations and Administration, and Eliza May, previously Director of Mission Services, has been promoted to Vice President of Mission Services and Community Outreach.

Jeannine O’Deens has dedicated over 5 years of her professional career to Komen Austin, and as Vice President of Operations and Administration, she will oversee financial management, human resources and Komen Austin’s volunteer programs. She is passionate about empowering women and looks forward to continuing her commitment to those who are most vulnerable to breast cancer.

Eliza May has been a part of the Komen Austin team for over 3 years and will oversee all mission related programs as Vice President of Mission Services and Community Outreach. She is excited to continue caring for the Austin community by directing Komen Austin’s Grants Management, Advocacy and Research programs within the area.

Komen Austin is proud to recognize the hard work and efforts of both Mrs. O’Deens and Mrs. May in the fight against breast cancer. They have dedicated time and energy to Komen Austin and will each continue to care for the Austin community in their respective positions.

#### **About Susan G. Komen® Austin**

Susan G. Komen® Austin is an Austin-based nonprofit committed to saving lives locally and fighting breast cancer globally. Komen Austin is the only local breast cancer organization attacking the disease on all fronts – education, screening, treatment, follow-up care, survivorship support, advocacy and research. The organization serves the women and men in the city’s five-county area battling breast cancer by removing barriers to care for the uninsured and underinsured. Of the funds raised annually, Komen Austin invests up to 75 percent into local community health care grants and educational initiatives; the remaining 25 percent is invested into global research to find the cures for breast cancer.
